This screen is the pleated retractable NEW DELHI110001 May 11, 2006 FOREWORD I am glad to learn that CPWD has standardised the sizes of door and window in government residential buildings and for dissemination of this information, the organisation is bringing out a manual. Standardisation of fittings and fixtures should not only lead to qualitative improvement of the buildings, but also reduce the cost of construction due to economies of scale in production of these items. In the present competitive environment, this is a step in the right direction.

I am confident that CPWD would continue to innovate in this manner to give good value for money, to its customers. I congratulate the officers of the CPWD to have brought out such a user friendly and comprehensive document and trust that the field officers will find it useful. Secretary Ministry of Urban Development PREFACE The committee on Standardization of Doors and Window sizes for Residential Buildings consisting of experts from CPWD, Confederation of Construction Products and Services CCPS and IBC Indian Building Congress submitted a report to the MoUD for acceptance.
